B. Lucke, Do small menu costs explain large business cycles? (E32)185
T.M. Andersen, Adjustment costs and price and quantity adjustment (E32)343
W. Thorbecke and G. Chisholm, Nonfarm employment and the arbitrage pricing theory (E44)193
B.K. Lee, Using capital mobility to enforce commitment (E61)199
S.-H.P. Lau, Welfare-maximizing vs. growth-maximizing shares of government investment and consumption (E62)351
N. Abe, Poverty trap and growth with public goods (E62)361

F International Economics

M. Bianconi, On dynamic real trade models (F11) 47
G.J. Stoelinga,, J.-M. Viaene and L.T. Visscher, Subsidized buyer credits: Atypical results in strategic trade theory (F13)205
R.E. Falvey and N. Gemmell, Explaining international differences in the share of services in real expenditure (F14) 53
H. Huizinga, The optimal taxation of savings and investment in an open economy (F20) 59
S. Marjit,, U. Broll and I. Mallick, A theory of overseas joint ventures (F20)367
C.E. Smith, Domestic taxation and international portfolio choice (F36)211

G Financial Economics

K.T. Au and D.C. Thurston, A new class of duration measures (G10)371
J.M. Hartwick, Capital gains and asset switching (G12) 63
H. Haller and C.-S. Liu, Asymptotic shareholder unanimity with exogenous noise (G12) 69
S. Claessens and Y. Qian, Bootstrapping options: An application to recapture clauses (G13)377
S.H. Lence, On the optimal hedge under unbiased futures prices (G13)385

H Public Economics

D. de Meza,, J. Maloney and G.D. Myles, Price-reducing taxation (H20) 77
M.Q. Islam, Consumption path following a tax increase: Implications for the analysis of the welfare cost of taxation (H20) 83
S.T. Kim, Income taxation vs. consumption taxation in terms of the effect on savings (H21) 89
J. Quiggin, The suboptimality of efficiency (H21)389
M. Gradstein and M. Justman, Competitive investment in higher education: The need for policy coordination (H52)393

J Labor and Demographic Economics

W. Darity Jr,, D. Guilkey and W. Winfrey, Ethnicity, race, and earnings (J15)401
J. Bughin, Unions and strategic managerial incentives (J21) 95
Y.-K. Ng and H.-l. Shi, Work quality and optimal pay structure: Piece vs. hourly rates in employee remuneration (J33)409

L Industrial Organization

K.S. Corts, On the robustness of the argument that price-matching is anti-competitive (L10)417
N. Gandal and K. Rockett, Licensing a sequence of innovations (L13)101
M. Une and T. Saijo, On the definition of favorableness (L15)109
M. Hardt, Market foreclosure without vertical integration (L22)423

O Economic Development, Technological Change, and Growth

P. Mauro, Stock markets and growth: A brief caveat on precautionary savings (O16)111
T. van Dijk, Innovation incentives through third-degree price discrimination in a model of patent breadth (O31)431
D.W. Lee and T.H. Lee, Human capital and economic growth: Tests based on the international evaluation of educational achievement (O40)219

R Urban, Rural, and Regional Economics

R. Kollmann, The correlation of productivity growth across regions and industries in the United States (R11)437
